SUMMARY

Full Stack Developer skilled in **MERN, .NET, and Angular**, delivering scalable, production-ready web applications with a focus on performance, clean architecture, and user experience.

EDUCATION

Bachelors of Technology

MIT ADT University • Pune, IN • 2027 • 8.62

SKILLS

Frontend Technologies: React, AngularJS, Next.js, JavaScript , HTML5, CSS3, Tailwind CSS, Bootstrap

Backend & APIs : Node.js, ASP.NET, Express.js, REST APIs, MongoDB, Postman, Sybase Adaptive Servers, DBArtisan

EXPERIENCE

Morgan Stanley

Analyst   July 2024 - July 2025，Mumbai, IN

- Gained hands-on experience developing enterprise-grade financial applications using **ASP.NET** and **AngularJS**.
- Built and tested over **20+ backend endpoints** for modules handling user authorization and transaction logging, improving reliability and reducing bug reports by **30%**.
- Developed **10+ reusable UI components** with AngularJS, contributing to a shared component library and accelerating frontend development by **15%**.
- Collaborated with a cross-functional team of **30+ engineers**, participating in code reviews and agile ceremonies to ensure code quality and alignment with project goals.
- Strengthened understanding of full-stack development, corporate SDLC processes, and deployment pipelines in a **high-performance financial tech environment**.

Aspivision Solutions

Software Engineer Intern   June 2023 - June 2024，Pune, IN

- Developed and deployed **10+ live, production-ready web applications** using the MERN stack, ensuring high performance and scalability.
- Led frontend and backend integration for client projects, improving **delivery timelines by 20%** and enhancing user experience across platforms.
- Designed, developed, and maintained the company's official website, contributing to a **30% increase in online client inquiries**.

PROJECT

Mobikoo.com

Aspivision Solutions • mobikoo.com • December 2023 - June 2024

- Built **3 role-based dashboards** (Admin, Shop Owner, Phone Checker) to manage **100+ monthly insurance claims** and approvals efficiently.
- Implemented secure CRUD APIs and responsive frontend interfaces, **reducing manual client support effort by 40%** and cutting claim processing time by **2 days**.
- Delivered a complete MERN stack solution supporting **real-time insurance status tracking** for **500+ active users** across multiple roles.

Aspivision Solutions Website

Aspivision Solutions • aspivision.in/ • June 2023 - July 2023

- Designed and developed the **official Aspivision Solutions website** using **React, Tailwind CSS, and EmailJS**, achieving **100% mobile responsiveness** and reducing bounce rate by **25%**.
- Implemented **SEO optimization strategies**, improving **Google search ranking from page 4 to page 1** and boosting organic traffic by **35%** within 3 months.
- Integrated **automated email workflows** via EmailJS, cutting average lead response time from **24 hours to under 12 hours** and increasing inquiry conversion rate by **20%**.

CERTIFICATIONS

Prompt Engineering

Vanderbilt University • 2023

- Gained hands-on experience in **optimizing AI outputs** for various use cases, including content creation, data extraction, and task automation.
- Applied advanced prompting techniques to **improve AI efficiency and relevance by up to 40%** in test scenarios.
